

Derek Wilson, NWMO

Derek is the Vice President of Design and Construction at the NWMO. He is responsible for the implementation of the APM technical program, as well as, the NWMO Project Manager for the Ontario Power Generation Low and Intermediate Level Waste Deep Geologic Repository project. Derek is a mining engineer with over 20 years experience in the mining and heavy construction industries, primarily in project and operational management roles. Prior to joining the NWMO, he was a Project Manager with the Mining division of AMEC responsible for the development of resource projects in Canada, after spending a decade with Holcim International.
