

Since April 2013, Craig Hebert has served as General Manager of the Port Hope Area Initiative Management Office, overseeing Canada's largest environmental remediation and restoration project for the cleanup and safe, long-term management of historic low-level radioactive waste in the Port Hope area of Southern Ontario, Canada.

Mr. Hebert is a licensed Professional Engineer with over 30 years of public and private sector management experience. He previously held the position of Senior Project Manager with Golder & Associates Ltd. Mr. Hebert has also held senior management positions in public works operations, engineering and municipal administration with the City of Barrie, Ontario.
