

**Monday session 2“New Approaches to Decommissioning and Waste Management at  
Canada’s Nuclear Laboratories”**

This Panel Session will provide a comprehensive and integrated overview of the new direction, innovations and approaches that Canadian Nuclear Laboratories (CNL) is proposing to advance decommissioning, waste management and site restoration work at Canada’s Nuclear Laboratories, and implement cost-effective and timely solutions. Panelists from CNL, Atomic Energy of Canada Limited (AECL) and the Canadian Nuclear Safety Commission (CNSC) will provide views and insights from the implementing, oversight and regulatory perspectives.

**Chair - Doug Metcalfe, Senior Manager, Uranium and Radioactive Waste Division, Canada  
Natural Resources Canada (NRCan)**

**Chair - Paul McClelland, Director Waste Management & Technical Support, AECL**

**Panelists**

**Richard Sexton, Vice-President, Decommissioning and Waste Management Oversight,  
AECL**

**Kurt Kehler, Vice-President, Decommissioning and Waste Management, CNL**

**Daniel Coyne, Head of Whiteshell Closure Project, CNL**

**Haidy Tadros, Director General, Nuclear Cycle and Facilities Regulation, CNSC**
