

## **Tuesday Session 5a**

### **Planning for Radioactive Waste Management – Opportunities and Challenges**

#### **Objective**

To provide an organizational perspective on the challenges and opportunities related to dealing with current and future radioactive waste management needs, with an emphasis on the relationship to the conference theme of “Collaborative Solutions for Current and Future Needs”. Panelists from the non-power producing sector of the nuclear industry, including CNL, Nordion, CNL and EnergySolutions Canada, will provide insight on current practices and needs in dealing with the management (including disposal) of radioactive waste in Canada

#### **chair**

**Steve Liblong, Director, D&WM S&T Advisor, Canadian Nuclear Laboratories**

#### **Panelists**

**Richard A. Wiens, Nordion, Vice-President, Director, Strategic Supply**

**Jim Buckley, CNL, Director, Low Level Radioactive Waste Facilities**

**Vik Tathe, Energy Solutions, Canada, Director, Business Development**

**Dale Huffman, AREVA Resources Canada, VP HS&E &RR**
