

Jim Gowland – BIO for NWMO

Jim Gowland became involved with the South Bruce NWMO / CLC process in 2013 and has served as Chair of the local CLC since inception. He sees an excellent opportunity to investigate the potential merits and impacts of the DGR project for the municipality. South Bruce has been a “nuclear community” for 60 years with the start of Douglas Point and now Bruce Power employing a number of South Bruce residents.

Jim has been a resident of the municipality of South Bruce for over 45 years. Jim began his farming career at the age of 19 in 1977, and with his wife Judy, the “Gowland’s” farm corporation operates a successful crop enterprise consisting of approximately 2000 acres of soybeans, corn, wheat, edible beans and forages. Currently Jim is the Chair of the Ontario Bean Growers marketing board where the focus is on research and market development of specialty dry beans for direct human consumption.
