

Wednesday Session 7
“ International Panel on Decommissioning and Environmental Restoration”

chair

Charles Hickman, Director, Environment and Emergency Planning, New Brunswick Power.

Over the past decade, a number of countries have moved away from nuclear power, we have seen a major natural disaster at Fukushima, and an evolution of decommission and restoration capability and experience. This Panel will provide an opportunity to exchange information about experiences in Japan, the UK, and current perspectives from the IAEA.

Speakers:

Lake Barrett, ‘US Decommissioning & Decontamination (D&D) experience’

Patrick O’Sullivan, ‘IAEA Initiatives’
